

# When Lapid visited ZAKA

• By GREER FAY CASHMAN

■ **IN THE** course of the state visit to Israel last week by Ukraine President **Petro Poroshenko**, his wife **Maryna** – a physician by profession – visited the Alyn Orthopedic Hospital and Rehabilitation Center to learn what methods are used in Israel to help disabled children improve and, in some cases, to recover.

Maryna was escorted by Alyn director-general Dr. **Maurit Beeri**. Poroshenko, who prior to the birth of the first of her four children worked as a cardiologist, is extremely interested in child welfare, in which she is active in Ukraine, and makes a point of learning about different aspects of child welfare when accompanying her husband abroad.
